

LEMONLINE

Lemonline is the digital version of my lemon grove.

Lemons are cultivated in Campania, located in the heart of Piana del Sele, without the use of chemical pesticides for post-harvest storage.

With lemonline you can adopt your tree choosing the *Adoption Plan* that best suits your needs. The subscription service allows you to receive the fruits of your own tree, grown with love and fully respecting nature, directly at your home.

Good, genuine and above all organic lemons.

With favorable climatic conditions lemons flower in different periods of the year. It is expected the production of 3 harvests each year:

Primofiore Lemons: blossoming between March and April; harvest between October and January

Bianchetti lemons: blossoming in June; harvest between April and May

Verdello Lemons: blossoming between July and September; harvest in summer time

With the FOREIGN adoption plan! you will get two deliveries of 7,5Kg each, for a total of 15Kg of lemons

With Lemonline you can adopt your naturally grown lemon tree and receive the quantity of lemons laid down in your Adoption Plan.

With the subscription you will be updated periodically about the life cycle of your tree, until the fruit is harvested and the Lemonbox is shipped with the freshly picked fruit.

With the Adoption Plan you will:

1. adopt a lemon tree and receive your own Adoption Certificate;
2. have a plaque with your name on your tree;
3. receive periodic tips and recipes from "Nonna Maria's Cookbook";
4. get the chance to visit the lemon grove located in Eboli (SA);
5. receive the Lemonbox with the quantity of lemons laid down in your Adoption Plan.

With the FOREIGN Adoption Plan you will get a total of 15Kg of lemons directly at your home in the two harvest periods successively to the subscription of the adoption.
